Political Complications in the Peninsula Throw a Shadow of Depression.

FOREIGN SELLING HAS EFFECT

This Converges on a Number of Stocks Which Have Recently Been Quite Active.

NEW YORK, October 7.—The political complications which have occurred in the Balkan Pentinsula threw a shadow of depression over the securities market to-day, directly on those of Eur. pe, while our own market came within its scope of sympathy. The influence was contested here with varying success, but the modifying effect of the European situation on the offerts to support prices was very obvious. The foreign selling of securities converged on a number of stocks which have held a leading place in all tecent speculative movements, and the sentimental effect of their weakness on the general list was correspondingly great. The improved tone of the local market after the hours for activity on foreign stock exchange had passed was further testimony to the part played by foreign influences in the early movements. The abrupt relapse in Rock Island preferred from its buoyant rise of yesterday threw some discredit on what is regarded as an attempted new leadership of the speculation. The choice of stocks to form the medium for operations towards railying the market fell on those of a lower grade and lesser price. Erie was conspicuous, and there was a steady and determined accumulation of United States Steel. The selection later of some of the Southern Railway stocks for similar operations gave the market some color of a distinctive movement in Morgan groperties. The money market was not appreciably affected by the color of a distinctive movement in Morgan properties. The money market was not appreciably affected by the political developments abroad, call loan rates hanging near the level of the midsummer ease of rates. The closing tone of the market exhibited much uncertainty.

Bonds were firm. Total sales, par value, were \$3,420,000. United States bonds were unchanged on call Total sales of stocks to-day were 799,900 shares.

NEW ORLEANS, LA. October 7.—COT. TON—Spot was very steady to-day: midding, 1-15c. up at \$11-16c. Sales on the spot were 1.700 bales and 205 to arrive. A very fair demand was in evidence from experters who were filling out shipments from the interior. Futures opened steady with prices 1 point lower to 5 points higher. Liverpool cables were onewhat botter than expected, and this encouraged fresh buying by builts. Shorts also bought freely to cover, and this more than offset rather heavy solking orders, which had been distributed ascund the ring before the opening. Soon affer the first call private cables were received stating, the was rumored in Liverpool that nine-tenths of the master spinners in Lancashire had voted to resume work in their mills. This was not confirmed, but it put the market up until the active positions above the lovel of yesterday's cleaking. The advance was well sustained, and on the closing the market up with the active positions showing a fat advance for the day of 652 pounts. Closing: October, 8-68. November, 155; December, 8-48. Argument in Funk Suit. [Special to The Times-Dispatch.]

[Special to The Times-Dispatch.]
WINCHESTER, VA., October 7.—In the Circuit Court to-day counsel argued the now famous suit of James N. W. Funk against Mrs. Virginia Ray, widow and executrix of John Ray, who was a business partner of Funk. The latter sues for an accounting, alleging that during Ray's lifetime he falsified the firm's books to the extent of thousands of dollars. An alleged receipt produced by the defense showed that there had been a full settlement some there had been a full settlement some years ago, but is branded as a forgery by Funk.

Some People ...Say

Business is dull, but we want to tell you that we're so busy that we're working our force overtime and putting on new men in our mechanical department. In fact, we want two more first-class salesmen right now to help us sell the thousands of people all over the Virginias and Carolinas who come to buy Jurgens' great Furniture and Carpet bargains.
